## About Us

The company was founded in 2005. It is now part of the "Naharji Group" and is known as "Vijay Automobile." Our organisation guarantees production excellence as well as a wide choice of high-tech components. Since 2008, Vijay Automobiles has been a major player in the automobile spare parts manufacturing. Years of experience, ability, and acute market understanding have contributed to our success as leading makers of excellent vehicle spares.

Vijay Automobile is a one-stop destination for Chain guide, Rubber parts , Drum rubber, Swing arm bush Kit, Forming Screw Kit, Silencer joint Bolt kit , Battery belt, Petrol pipe, Master cylinder kit, Seat lock cable, Disk break o' ring kit, Condenser, Fork ribbon set etc. We make these products with high-quality raw materials sourced from reputable manufacturers and suppliers.

We serve major automobile traders and exporters in India. We collaborate with customers from product development through mass production of products and solutions.

### Service, Consistency and Trust

These are the pillars on which Vijay Auto has built its customer base in India.

Using these ideals, the company is currently pursuing its objective of exporting. The organisation now offers the same quality that we worked on in India to consumers outside of India. We are recognized as an exceptional exporter due to our successful career in India, significant expertise, and in-depth study of the two-wheeler auto market.
